

ROCKET FILTER SYSTEM (WP-9001)

A filter which can be installed directly through the main pipe to provide filtered water for the whole terrace house, restaurant or factory.

Features Description:-

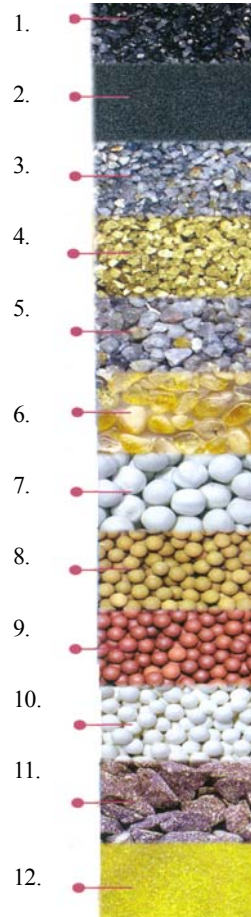

- Made of high quality long lasting stainless steel casing.
- Contain activated carbon to remove chlorine, dirt, rust, iron, repulsive smell and to prevent diseases.
- Easy to install and operate, free from any mechanical or electrical connection.
- Trouble free and low cost maintenance.
- Remove dirty water through a reverse back-wash system

Rocket Filter

Optional:

- 1. Granular activated carbon**
Removes chlorine, bad taste, repulsive smell, turbidity & organic matters.
- 2. Anthracite Carbon**
While trapping the sediments, being the primary function of the carbon.
- 3. Fine Silicon Sand**
Removes dirt.
- 4. Coarse Silica Sand**
Removes rust & iron and to soften the water.
- 5. Andesite Sand**
Balance the PH and increase oxygen supply and restoration of water quality.
- 6. Crystal**
Release energy into water
- 7. Bio Plus**
High energy and high oxygen.
- 8. Bio Plus II**
Contain above 10 kinds of mineral diminution of heavy metal.
- 9. Far Infrared Ceramic Stone**
Human metabolism and improve blood circulation. Emits of high far infrared.
- 10. Bio Plus III**
Removes bacteria
- 11. Mineral Stone**
Increase mineral content in the water.
- 12. Resin**
To remove rust and iron and to soften the water

FILTER CONTAIN CAN INCREASE OR CHANGE UP TO 5, 6, 7 LEVEL DEPEND OF CUSTOMER REQUIRED.

| Model | Output Pipe (Inch) | Tank (Dia x H) | Flow Rate (Ltr/hr) At 30 lb/In |
|----------|--------------------|-----------------|--------------------------------|
| TK-R15 | 3/4" | 150mm x 1168 mm | 800Lt - 1000Lt |
| TK-R15-H | 3/4" | 150mm x 1600 mm | 800Lt - 1000Lt |
| TK-R20 | 3/4" | 200mm x 1168 mm | 900Lt - 1100Lt |
| TK-R20-H | 3/4" | 200mm x 1600 mm | 900Lt - 1100Lt |
| TK-R25 | 3/4" / 1" | 250mm x 1168mm | 1000Lt - 1500Lt |
| TK-R25-H | 3/4" / 1" | 250mm x 1600mm | 1000Lt - 1500Lt |
